

### Features

- · Plastic housing with class II and PFC design
- Constant Voltage + Constant current mode output
- Standby power consumption < 0.5W
- · IP67 rating for indoor or outdoor installations
- Dimming function: 3 in 1 Dimming(C.V Dim. only) to adjust output voltage level
- · Flicker free Design
- Typical lifetime >50000hours
- 5 years warranty

# Applications

- · LED panel lighting
- LED downlight
- · LED decorative lighting
- · Industrial lighting
- · Sign board and back light
- LED strip lighting(C.V Dimming)
- Agricultural lighting(C.V Dimming)
- Poultry lighting (C.V Dimming)
- Type "HL" for use in Class I, Division 2 hazardous (Classified) location

# Description

NPF-200 series is a 200W AC/DC LED driver featuring the constant current or constant voltage mode output. NPF-200 operates from 100~305VAC and offers models with different rated voltage ranging between 12V and 54V. Thanks to the high efficiency up to 94% with the fanless design, the entire series is able to operate for -40°C~+85°C case temperature under free air convection. The entire series is rated with IP67 ingress protection level and is suitable to work for a variety of applications at dry, damp or wet locations. NPF-200 is particular design without flicker Dimming Function which is suitable for LED strip or Poultry lighting applications.

NOTE	All parameters NOT specially mentioned are measured at 230VAC input, rated current and 25°C of ambient temperature.  2. De-rating may be needed under low input voltages. Please refer to "STATIC CHARACTERISTIC" sections for details.  3. Length of set up time is measured at first cold start. Turning ON/OFF the driver may lead to increase of the set up time.  4. The driver is considered as a component that will be operated in combination with final equipment. Since EMC performance will be affected by the complete installation, the final equipment manufacturers must re-qualify EMC Directive on the complete installation again.  5. This series meets the typical life expectancy of >50.000 hours of operation when Tcase, particularly € point (or TMP, per DLC), is about 75°C or less.  6. Please refer to the warranty statement on MEAN WELL's website at http://www.meanwell.com  7. The ambient temperature derating of 3.5°C/1000m with fanless models and of 5°C/1000m with fan models for operating altitude higher than 2000m(6500ft)  8. For any application note and IP water proof function installation caution, please refer our user manual before using. https://www.meanwell.com/Upload/PDF/LED_EN.pdf  9. Ripple & noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf & 47uf parallel capacitor.  10. Tolerance: includes set up tolerance, line regulation and load regulation.  11. To fulfill requirements of the latest ErP regulation for lighting fixtures, this LED power supply can only be used behind a switch without permanently connected to the mains.  ★ Product Liability Disclaimer: For detailed information, please refer to https://www.meanwell.com/serviceDisclaimer.aspx								

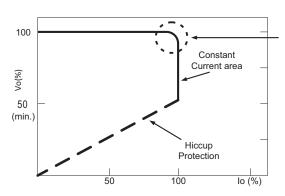

### ■ BLOCK DIAGRAM

PFC fosc: 50~120KHz PWM fosc: 60~130KHz

### ■ DRIVING METHODS OF LED MODULE

\* This series works in constant current mode to directly drive the LEDs.

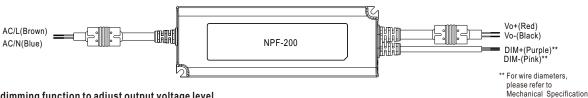

Typical LED power supply I-V curve

In the constant current region, the highest voltage at the output of the driver depends on the configuration of the end systems.

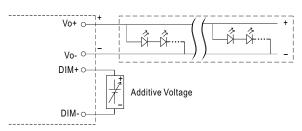

Should there be any compatibility issues, please contact MEAN WELL.

### **■ DIMMING OPERATION**

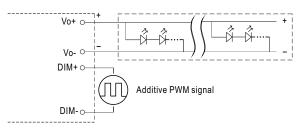

- $\ensuremath{\mathbb{X}}$  3 in 1 dimming function to adjust output voltage level
- Output constant voltage can be adjusted by applying one of the three methodologies between DIM+ and DIM-: 0 ~ 10VDC, or 10V PWM signal or resistance.
- Direct connecting to LEDs is suggested. It is not suitable to be used with additional drivers.
- Dimming source current from power supply: 100µA (typ.) ⊚ Applying additive 0 ~ 10VDC

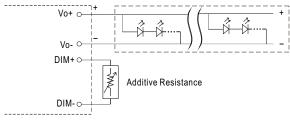

"DO NOT connect "DIM- to Vo-"

O Applying additive 10V PWM signal (frequency range 100Hz ~ 3KHz):

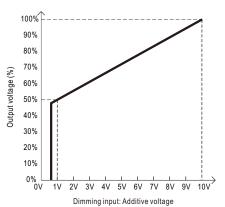

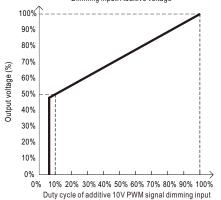

"DO NOT connect "DIM- to Vo-"

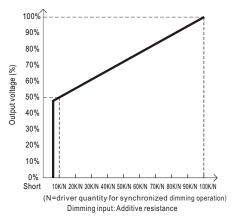

O Applying additive resistance:
